**PROGRAM PREREQUISITES**

- Complete Years 1 to 3 at Tianjin University of Technology course matrix, including: Electronics, Electromagnetic, Digital Logic, and Microprocessors.
- Excellent English communications skills to achieve the required 80 on the TOEFL iBT/550 Paper based TOEFL/ 6.5 IELTS.

**ACADEMIC CURRICULUM**

**Fall Semester (15 credit hours of undergraduate Electrical and Computer Engineering courses)**

OVERVIEW

The Florida A&M University - Florida State University (FSU) College of Engineering offers a 30-credit Special Academic Program in Electrical and Computer Engineering for Tianjin University of Technology students. This unique program prepares participants for their engineering careers in industry or pursuit of advanced degrees by providing them with comprehensive training through course work and experiential practices.

The program is designed for highly motivated and academically-inclined, rising senior students who will have completed the first three years of the required curriculum by July 2016. Students take two semesters of FSU courses and supervised research needed to complete their Bachelor degree at their home institution, and up to twelve credit hours count toward a MS in Electrical and Computer Engineering at FSU.

Students interested in remaining at FSU for graduate studies will take the Graduate Record Examination (GRE) during the second semester at FSU. Students with an FSU grade point average of 3.0 (B or better) and acceptable GRE scores will be considered for the FSU MS Program in Electrical and Computer Engineering, to begin fall 2017. Once accepted into the graduate program, students will be responsible for paying out-of-state tuition during the MS program and will need to take at least three semesters of coursework to receive their MS degree.

Program Dates: Mid-August 2016 – Early May 2017
Program Fee: $31,000

PROFESSIONAL PREPARATION

The academic program will be supplemented with professional preparation activities, such as the following:

Senior Capstone Design Project Course
The culmination of engineering education and emphasizes chemical engineering process design. Requires students to apply electrical & computer Engineering principles under conditions that closely resemble those the real world.

Seminar Series
A professional preparation seminar series, including topics such as technical presentations, entrepreneurship, best research practices, career options graduate school, & industry practices.

BENEFITS FOR STUDENTS

- Immersion in English-language and American culture, while earning credit at a highly ranked US university
- Study in classes with domestic and international students
- Full integration in the academic and social life of the academic department
- Work closely with FSU’s high caliber faculty, often in small groups settings or on an optional individualized research project
- The opportunity to transfer up to 12 credits earned during the program into a Master of Science at FSU
- Dedicated academic and non-academic support from staff at the Center for Global Engagement to ensure a smooth transition to living and studying in the USA

PROGRAM SUPPORT

A team of staff at the Center for Global Engagement (CGE) at FSU provide academic and non-academic support for students throughout the duration of the program.

Staff members contact students accepted into the program to provide them with information about FSU, as well as to send all of the necessary immigration documents to apply for a visa. The CGE arranges housing and airport pick-ups and provides a Peer Mentor to help ensure that students are integrated into the FSU community.

In addition, the CGE provides academic support for students during the program, including course scheduling, advising, class registration, online learning and library access, and graduate school admissions. The CGE academic support staff member will also meet with participants regularly about academic matters and hold weekly office hours.

ELIGIBILITY & APPLICATION PROCESS

Strong applicants will have an 80 on the TOEFL iBT Test or a 6.5 on the IELTS, have a grade point average of 3.0 or equivalent, and have completed at least three years at their home institution.

Students must submit the completed Florida State University non-degree student application form, copies of the undergraduate transcripts, and TOEFL score to their department’s Faculty Contact.

The deadline for application submissions to FSU is January 4, 2016. Application materials will be reviewed and final admission decisions will be made by the FSU faculty in the Department of Electrical and Computer Engineering.

PROGRAM FEE $31,000 INCLUDES:

- 30-credits in Department of Electrical and Computer Engineering, including lab fees for appropriate courses
- Ongoing support from CGE staff and peer mentors
- Room and board at FSU for fall and spring
- FSU ID Card & transcript (upon Program completion)
- Group pick up at Tallahassee Airport

In addition to program fees students pay for the following:

- SEVIS fee and visa application fee
- An additional $3,000 fee for students who choose the optional Individualized Research Project
- Roundtrip airfare to Tallahassee,
- Medical insurance meeting FSU requirements
- Textbooks
- Personal costs and food during break periods.

ACCOMMODATION AND DINING

Students live in the SouthGate Campus Centre which is conveniently located adjacent the Florida State University campus. The rooms are double occupancy and each student has a bed, wardrobe and desk. Wholesome meals are provided in the Southgate Dining Hall. Mealtimes offer excellent variety and choice of food and opportunities for social interaction with domestic and international students. http://southgateattallahassee.com/
